SUMMARY

Backend-Focused Full-Stack Developer with hands-on experience building RESTful APIs and backend applications using Node.js, Express.js, MongoDB, PostgreSQL, and JavaScript. Experienced in authentication, API integration, database management, debugging, testing, and deploying web applications. Strong foundation in software development, problem solving, Git/GitHub, Docker, and cloud fundamentals with exposure to AWS EC2.

EXPERIENCE

Data Science & Software Engineering Trainee Jun 2025 – Jul 2025
DUCAT & Codtech IT Solutions *Ludhiana, India*

- Developed and tested software solutions using Python while applying structured debugging and problem-solving practices to improve application functionality.

MERN Stack Developer Intern May 2026 – Jul 2026
Codtech IT Solutions Pvt. Ltd. *Remote, India*

- Developed backend applications and RESTful APIs using Node.js, Express.js, MongoDB, and JavaScript, implementing features for reliable data flow and application functionality.
- Built, tested, debugged, and deployed API-based features while improving backend performance, scalability, authentication, and database integration.

PROJECTS

AI-Powered Job Portal & ATS System (Talent Bridge) | ***React.js, Node.js, Express.js, MongoDB, Gemini AI*** GitHub Link

- Engineered 40+ modular REST APIs using Node.js and Express.js with MongoDB for job management, candidate processing, authentication, and application workflows.
- Implemented JWT-based role authentication and integrated Google OAuth and Gemini AI APIs for secure authentication and automated resume-to-job matching.

EcoLocal Marketplace | ***React.js, Node.js, MongoDB Atlas, Google Vision API*** GitHub

- Developed backend functionality using Node.js, REST APIs, and MongoDB for product management, user authentication, and marketplace operations.
- Integrated Google Vision API for image-based product identification and implemented Google OAuth with bcrypt password hashing for secure authentication.

Expense Tracker | ***Next.js, Prisma ORM, PostgreSQL, Clerk*** GitHub | Live Demo

- Implemented backend data management using Prisma ORM and PostgreSQL with structured relational schemas, relationships, and consistent transaction handling.
- Implemented Server-Side Rendering (SSR) to improve initial page loading performance by 30% and improve overall application responsiveness.

TECHNICAL SKILLS

Languages : JavaScript (ES6), C++, Python (Basic), HTML5, CSS3
Backend : Node.js, Express.js, REST APIs, RESTful API Development, API Integration
Databases : MongoDB, MongoDB Atlas, PostgreSQL, MySQL
Authentication : JWT, OAuth, Google OAuth, bcrypt
Cloud & DevOps : AWS EC2, Vercel, Render, Docker
Tools : Git, GitHub, Postman, Prisma ORM
Core CS : Data Structures, Algorithms, OOP, Operating Systems, DBMS, SDLC, Debugging, Problem Solving

EDUCATION

PCTE Institute of Engineering and Technology Ludhiana, Punjab
Bachelor of Technology in Computer Science Engineering (CGPA: 8.3/10) *Expected May 2027*
Punjab School Education Board (Class XII) Ludhiana, Punjab
Senior Secondary Education (88%) *May 2023*
Punjab School Education Board (Class X) Ludhiana, Punjab
Matriculation (90%) *May 2021*

Achievements & Certifications

- Participated as a member of Team HerTechTitans in the Credx Hiring Challenge 2.0, collaborating to design and develop the Talent Bridge Job Portal.
- Solved Data Structures and Algorithms problems across LeetCode and other coding platforms.
- Awarded a Letter of Appreciation by university management for strong written and verbal communication while organizing technical events.
- **Certification:** MERN Stack Web Development Professional Internship – Codtech IT Solutions (2026).
