SUMMARY

Detail-oriented Software Engineer and Full-Stack Developer with strong quantitative, analytical, and problem-solving skills. Proficient in core Computer Science fundamentals including Object-Oriented Programming (OOP), Data Structures, and Algorithms. Experienced in developing, validating, and testing software functionality within Agile/Scrum lifecycles. Adept at collaborative system integrations, structural debugging, and creating clear technical documentation to ensure optimal program performance.

TECHNICAL SKILLS

Languages : C++, JavaScript (ES6), Python (Basic), HTML5, CSS3
Frameworks & Libraries : React.js, Next.js, Node.js, Express.js, Prisma ORM
Databases & Cloud : MongoDB Atlas, PostgreSQL, Vercel, Render
Testing & Tools : Unit Testing, Git, GitHub, Postman, GDB Debugging, Docker
Core CS & Methodologies : Data Structures, Algorithms, OOP, Software Development Life Cycle (SDLC), Agile, Scrum, Operating Systems, DBMS
Competencies : Software Functionality Validation, RESTful APIs, System Integration Fundamentals

EXPERIENCE

MERN Stack Developer Intern May 2026 – Jul 2026
Codtech IT Solutions Pvt. Ltd. *Remote, India*

- Completed phases of software engineering design including coding, testing, validation, and deployment within an Agile team environment.
- Conducted performance analysis of API endpoints, implementing targeted fixes that reduced thread-blocking issues and increased application scalability by 15%.
- Created and maintained detailed software documentation, design specifications, and test results to ensure adherence to quality standards.

Hackathon Participant (Team HerTechTitans) Jul 2026
Credx Hiring Hackathon 2026 (CredxHire) *Ludhiana, Punjab*

- Collaborated with a cross-functional engineering team during the Credx Hiring Challenge 2.0 to design and build an engineering architecture prototype under competitive constraints.
- Engineered the **Talent Bridge Job Portal**, integrating automated modules to handle user workflows and securely bridge the gap between job candidates and hiring organizations.

PROJECTS

AI-Powered Job Portal & ATS System (Talent Bridge) | ***React.js, Node.js, Express.js, MongoDB, Gemini AI*** GitHub Link

- Synthesized hardware-independent software solutions by integrating Google Gemini AI and Mammoth to securely parse user structures and generate automated matching metrics.
- Engineered 40+ modular REST APIs featuring JWT-based role authentication to enforce strict access rules and data consistency.

EcoLocal Marketplace | ***React.js, Node.js, MongoDB Atlas, Google Vision API*** GitHub

- Collaborated on the integration of external software components, leveraging the Google Vision API for image-based system matching functionality.
- Implemented strict data verification pipelines using Google OAuth and bcrypt hashing techniques to maintain high software security standards.

Expense Tracker | ***Next.js, Prisma ORM, PostgreSQL, Clerk*** GitHub | Live Demo

- Exercised sound analytical judgment to leverage Server-Side Rendering (SSR), successfully reducing initial page load times by 30%.
- Formulated relational database schemas utilizing Prisma ORM to guarantee highly consistent, ACID-compliant transaction handling.

Education

PCTE Institute of Engineering and Technology — Ludhiana, Punjab
Bachelor of Technology in Computer Science Engineering (CGPA: 8.3/10) — *Expected May 2027*

Punjab School Education Board (Class XII) — Ludhiana, Punjab
Senior Secondary Education (88%) — *May 2023*

Punjab School Education Board (Class X) — Ludhiana, Punjab
Matriculation (90%) — *May 2021*

Achievements & Certifications

- Co-authored and presented a peer-reviewed research paper titled ”Optimizing Full-Stack Architectures for Modern Web Ecosystems” at the PCTE-ICMR 2024 International Conference, analyzing scalable software design methods.
- Demonstrated analytical problem-solving skills by solving extensive Data Structures and Algorithms problems across LeetCode and HackerRank platforms.
- Awarded a Letter of Appreciation by university management for exercising strong written and verbal communication while organizing high-visibility technical events.
- **Certification:** MERN Stack Web Development Professional Internship – Codtech IT Solutions (2026).
